

# MIGRATION SERVICES EXCHANGE ONLINE

*From the First System Check to the Last Calendar Entry*

At first glance, migrating mailboxes to a cloud environment does not seem to be a major challenge. Simply establish a connection between the existing infrastructure and Exchange Online - and you are ready to go. However, in practice this rarely runs so smoothly. The experts at SCHIFFL assist you from the first phase of checking the migration requirements to the migration of the last mailbox. No matter which source system you use, Exchange on Premise, Lotus Notes, Google, Kerio, GroupWise or Tobbit. Our wide-ranging expertise enables us to determine the most suitable migration tool to ensure a smooth process.

## Your Benefits:

- Extensive experience in various migration projects with different mail systems
- High level of expertise in handling various migration tools
- Migration of other items such as public folders, calendars and shares, contacts, tasks and notes.
- Support by certified Microsoft Engineers from Germany
- Know-how in related areas such as AD/DC, PKI, network infrastructure
- Multiple Microsoft Gold Certified

## SOLUTION MODULES:

- Inventory analysis
- Checking the migration requirements
- Creation of a migration process
- Selection of the suitable migration tool
- Assessment of the impact on adjacent systems
- Preparation of the Exchange Online target environment
- Piloting the migration
- Executing the Migration
- After migration support
- Training for your administrators
- Support in the further development of the overall system
