

MANAGED HOSTED EXCHANGE

Your Private Email Solution

Make your e-mail system more flexible and accessible at all times - by moving to the private cloud, your company is well prepared for the demands of digital transformation. With the co-managed approach and the standards of the private cloud, you have your e-mail system under control at all times. We support you extensively with the migration of your e-mails, regardless of your source system. In addition, you have your private place in the SCHIFFL Private Cloud - no client system. Your data is stored in a highly certified data center in Germany and protected in accordance with GDPR.

Your Benefits:

- Hosting in the Private Cloud - dedicated system environment
- Adherence to compliance and auditing requirements through hosting made in Germany
- Support by certified employees from Germany
- Scalability and expandability of the environment
- Integration into your existing system environment
- Monthly flexible billing (you only pay for what you use)
- Co-managed approach - you can manage your system independently
