

# MANAGED IT-OUTTASKING

*You Keep the Oars - We Provide the Ride*

We offer you the optimal framework conditions in a highly certified German data center to safely navigate around the demands of digital transformation. Together with our certified engineers, we will find the right cloud strategy that suits you best - whether private cloud, managed hosting or co-location. From the management of entire operating systems to the provision of individual applications, you receive all services from a single source. Throughout the entire collaboration, you retain administrative control over your systems through the co-managed approach.

## Your Benefits:

- Highest level of security through hosting 'Made in Germany'
- Co-managed approach - you can maintain and manage the system independently
- Dedicated support team from Germany - from the user interface to the cloud environment
- Maximum flexibility through the combination of different cloud concepts
- Manufacturer-independent connection of various applications
- Easy scalability of the required resources
