

MANAGED MICROSOFT TEAMS + TELEPHONY

The Complete Package for Communication & Collaboration

Make communication and collaboration within your company more efficient - with the centralized solution Microsoft Teams, you always have your workplace with you. We provide you with a high availability managed telephony solution to replace your existing PBX. We design and configure the new system according to your requirements and offer dedicated support by certified technicians for ongoing operation.

Your Benefits:

- Hosting in a highly certified data center in Germany
- High availability - worldwide and at any time
- Co-managed approach - you can maintain and manage the system independently
- Support and maintenance 'Made in Germany' - from the user interface to the cloud environment
- Fast migration to Voice-over-IP technology
- You can retain your usual telephone number and save conversion costs.
- Many more add-ons such as virtual fax solution, compatible Team phones, analog gateways DECT integration, door control, etc.

SOLUTION MODULES:

- Inventory analysis
- Individual integration concept
- Highly available managed telephony solution
- Secure environment
- Integration of your IP connections
- Integration of the solution into your 0365 environment
- Training for your administrators
- All services for securing the ongoing operation, e.g. support, monitoring, backup, storage and capacity management
